April 4, 2005

To Our Valued Customers/Suppliers/Business Partners:

We are pleased to announce that April 1st, 2005 marked our 10th Anniversary.

As many do as we grow a bit older, we have done a makeover on the way we look. As you see on this letter, our logo, collaterals, and web site now have a new look, feel, and energy. While this change is new, we want to emphasize that we remain committed to continue bringing you the excellence of our services and solutions.

The new look coupled with many other progressive initiatives, represent a giant step forward for us. We are encouraged and optimistic about the future and, as always, we are focused on delivering services and solutions that address our customers' technology challenges.

Thank you for having us as a part of your solutions. We promise to continue living our dreams and growing responsibly.

Sincerely,

Jenny
